GEOGRAPHY

**2017 - 2022**

MAIN INDICATORS IN CONTEMPORARY ARCHITECTURE

July 2023

## INTRODUCTION

On the eve of its 9th edition, the Prix Versailles is now in a position to map the best architectural projects that are emerging across the globe.

All Prix Versailles Laureates are testimonials to the aesthetic vitality of their regions and a tribute to the hard work of a large number of internationally renowned and/or pioneering firms. Because they all serve excellence in architecture, the programme is proud to showcase this living, moving heritage.

Between 2017 and 2022, Prix Versailles awards were discerned to 511 projects in 75 countries, distinguishing 416 architectural firms along the way. In addition to studying the submissions that are received each year, the Prix Versailles also examines most of the projects covered by world media.

The unprecedented scope of this review provides indications of the latest trends.

**Which of the world's regions, countries, cities and towns have had the biggest impact on creativity?**

### **About the Prix Versailles**

Presented each year at UNESCO since 2015, the Prix Versailles is a series of architectural competitions that shine a light on the finest contemporary projects around the world.

At the intersection between multiple disciplines, the members of the Prix Versailles World Judges Panel are tasked with awarding 24 World Titles from amongst the 96 finalists shortlisted by the World Selections (in the categories of Airports, Campuses, Passenger Stations and Sports) or recognized as Continental Laureates (in the categories of Shops & Stores, Shopping Malls, Hotels and Restaurants).

The Official List – which pays tribute to innovation, creativity, reflections of local heritage, ecological efficiency and the values of social interaction and participation which the United Nations holds in high regard – is in line with the principles of intelligent sustainability, taking the projects' ecological, social and cultural impacts into consideration.
